## LIST OF PUBLICATIONS

### INTRODUCTION

Publications of the Bureau may be classified broadly under three headings

- (a) Census
- (b) General
- (c) Reports and Bulletins.

Census Publications have been issued in respect of each Commonwealth Census taken, namely, 1911, 1921, 1933, 1947 and 1954 Censuses. Details of publications relating to earlier Censuses are available on request, and those issued to-date in respect of the 1954 Census are listed hereunder.

General Publications include Statistics on all major topics. They are in the main printed publications available by purchase from the Government Printer, Canberra, and give a general picture of the subjects dealt with.

Reports and Bulletins deal mainly with individual topics and are of two kinds - printed Reports issued annually containing detailed analysis of the main statistics collected, and supplementary information issued from time to time in mimeographed form, bringing the statistics completely up to date by reducing the time lag between compilation and publication of the statistics. An alphabetical list of these publications grouped under principal subjects and cross indexed to afford easy reference is appended.

Copies of the publications for which prices are shown are obtainable by purchase direct from the Government Printer, Canberra and the Commonwealth Sub-Treasury in each capital city, or they may be ordered through the leading booksellers in the principal cities of Australia. A limited number of copies of these publications are available from the Commonwealth Statistician for free distribution to members of Parliament, Commonwealth and State Government Departments, public bodies and publicists, etc.

The prices quoted for publications include postage within the British Empire - prices for foreign countries are in some instances slightly higher.
